An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for March is 3.5 percent, one and a tenth percentage points below the national rate of 4.6 percent, Craig E. Hartzler, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during March 2001 was 2,971,300

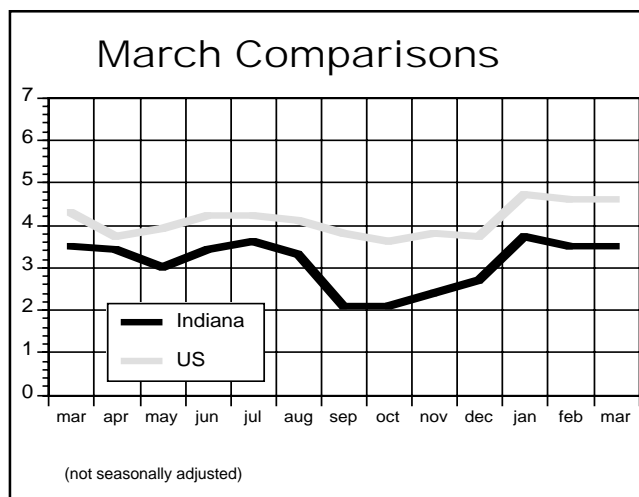

Indiana's March unemployment rate was lower than Illinois, 5.5 percent; Ohio, 3.8 percent; Kentucky, 4.3 percent and, Michigan 5.2 percent.

"Indiana's unemployment rate is holding steady. Construction employment is on the rise along with areas such as business services, computer and data processing. Indiana's continued loss of manufacturing jobs, however, remains a concern," commented Hartzler.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,979,700, a decrease of 10,100 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 666,800 in March, a decrease of 22,800 from last year. Motor vehicle manufacturing accounts for 95,200 jobs, 8,600 less than one year ago. Manufacturing of motor vehicle parts totals 61,100. Industrial machinery manufacturing in March accounts for 73,100 Hoosier jobs, 100 less than February.

Construction employment totals 145,100 an increase of 6,500 from last month. Of that, heavy construction reports 14,300 jobs, an increase of 900 from February.

(over)

Service producing employment totals 2,161,900 in March, 12,800 more than last year. Transportation and public utilities total 148,900, or 1,400 more than February.

Retail trade totals 545,800, 7,000 less than a year ago. Of that, general merchandise stores report employment of 79,800, or 1,100 less than last year. Service sector employment, such as business services, computer and

data processing, totals 753,800 in March, which is 14,500 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,079,400 in March 2001. An estimated 2,971,300 Hoosiers are employed and 108,100 are unemployed.

Indiana's labor force for March 2000 totaled 3,055,000. Hoosiers employed one year ago is estimated at 2,934,900, and March 2000 unemployed in Indiana totaled 120,100. Indiana's estimated unemployment rate one year ago was 3.9 percent, compared with the national unemployment rate of 4.3 percent in March 2000.

Industry Payroll Employment

Selected Categories	March 2001	Change from Feb. 2001	Change from Mar. 2000
Goods Producing	817,800	+3,700	-22,900
• Construction	145,100	+6,500	-100
• Manufacturing	666,800	-3,100	-22,800
Service Producing	2,161,900	+11,100	+12,800
• Retail Trade	545,800	+400	-7,000
